Gold Proflex
– the best flexible choice
for hand sanding operations

Quality from start to finish

Gold Proflex is a stearate coated abrasive paper for dry hand sanding of wood, fillers, paints and lacquers. The backing consists of a flexible, impregnated latex paper that provides desired flexibility and conformity in profile sanding operations as well as on flat surfaces. The paper has an anti-slip coating on the back side in order to provide good grip and feeling during the sanding. Gold Proflex has aluminium oxide grain, which provides a good cut and an excellent scratch pattern.

Gold Proflex

Technical Data

Grain	Aluminium oxide
Bonding	Resin over resin
Backing	C-paper P80–P180, B-paper P220–P800
Coating	Semi-open
Colour	Gold
Grit range	P80–P800

Suitable for

- Paint & Decorating
- Wood Processing
- Automotive Refinishing

Available as sheets and rolls.
