

Solid Glass Doors

Solid glass doors in low-iron clear

Solid glass doors by Element Designs are a clean, contemporary cabinetry or closet door solution. The doors are ideal in closet, commercial, retail, bathroom and kitchen applications, especially where full interior cabinet visibility is desired. The specially engineered glass door is available with select 6mm glass types including low-iron glass options. The CRISTALLO hinge door plates are pre-adhered to the glass by Element Designs and arrive ready to be installed as cabinet doors. Element Designs is proud to be the exclusive supplier of CRISTALLO hinges in the United States. Our manufacturer approved hinge adhesion procedures ensure the doors are attached properly for safety and durability. Solid glass doors can be fabricated to accept decorative hardware or can be used with touch to open hardware as well.
